## WHOLE-HOUSE AIR CONDITIONING

**FEDDERS**  
**Adaptomatic**  
CENTRAL AIR CONDITIONER

Forget everything you ever heard about central air conditioning. Now, for a ranch or two-story home, for Cape Cod or Contemporary, there's an easy, economical solution to whole-house air conditioning. In place of old-style air conditioning equipment that had to be supported on the side from separate units, you can enjoy an all-in-one air conditioner that's completely factory-built, assembled, tested and the new, modern new Fedders Adaptomatic. Say goodbye to expensive cooling, lower water bills, engineering costs. Fedders Adaptomatic takes residential air conditioning out of the luxury class.

**NO costly structural alterations — big, big installation savings**

In addition to its low cost, the Adaptomatic reduces installation expense. It's no longer necessary to cut an expensive hole late in exterior walls, to build special structures. Adaptomatic installs anywhere to minimize costly structural.
